**OPENING WEEK | NON-RATED JULY 4-6, 2025**  
**USEF NATIONAL HUNTERS | LEVEL 3 JUMPERS | JULY 9-13, 2025**

**Biosecurity**

**EQUINE COMPETITION HEALTH & BIOSECURITY REQUIREMENTS**

To ensure the safety of all equine exhibitors showing at Chagrin Valley Farms, CVF management has put in place the following health and safety protocols for horses at **all** shows and competitions (rated shows, schooling shows, dressage, mini-trials, etc.) beginning in March 2024. Great biosecurity is a team effort and begins at home; please do not ship horses to CVF who have elevated temperatures.

**Negative Coggins (within twelve months)** – Proof of a current negative Coggins test within 12 months.

**Vaccinations (within six months)** – It is required all horses be vaccinated for Equine-EHV I/IV (either modified live or killed vaccine) and Equine Influenza no sooner than seven days prior to and no later than 180 days (six months) prior to entering the show grounds. Most EHV-1 vaccines are only considered effective for 180 days. Please check with your veterinarian about which vaccine is right for your horse. We strongly recommend vaccinations against WNV, EEE, WEE, Tetanus and Rabies.

**Statement of Health or Health Certificate (14 days)** – Required for all horses arriving from outside the state of Ohio. The statement of health must be dated within 14 days of check in, affirming that the horses entering the facility have not had an elevated temperature, been to a facility where there has been a positive or suspected positive case of EHV, been in a close proximity to an ill horse and receive routine vet care and vaccinations. The Statement of Health must be signed by a licensed veterinarian and on the vet's letterhead.

\*Please note, a health certificate will be accepted to meet the health statement requirement, if it is dated within 14 days of check-in.

**We prefer health papers emailed before arrival, but visitors/competitors may also present health papers to the show office before horses are unloaded from the trailer. Send forms and health paperwork to [equinehealthrecords@chagrinvalleyfarms.com](mailto:equinehealthrecords@chagrinvalleyfarms.com)**

**After Arrival**

**No Use of CVF Pastures or All-Weather Turnouts**

Visiting horses are NOT allowed to use CVF pastures or turn-outs while on the property. Violators will be fined and repeat violators will not be allowed to return for future shows.

**Reporting to Show Management**

Any temperature over 101.5F degrees or abnormal clinical signs must be reported immediately to the Show Veterinarian and Horse Show Manager immediately. The Show Veterinarian will examine the horse to determine if isolation or testing of the horse for a potential equine infectious disease is necessary. CVF reserves the right to test any horse that has a fever and/or clinical signs for an infectious disease at owner expense.

CVF has a 3-stall quarantine barn to house horses during assessment and in case horses must be retained on the property for quarantine before returning to their home facility. When the show veterinarian deems that a horse must be quarantined, it must be housed in this facility or removed from the property immediately (if allowed).

**Show Management Notification to Competitors**

Should a risk case be identified, show competitors will be notified through a combination of show announcements, SMS messages, and direct messaging with competitors that a case is being investigated. Updates will be sent as soon as they are available.

**Practice and communicate biosecurity best practices to your barn staff.**

**Post Show/Competition**

If your horse begins to display a fever or clinical signs of a contagious nature within 14 days of departing, please notify CVF immediately for tracking purposes.
